Pflügers Archiv · European Journal of Physiology

Founded in 1868 as „Pflügers Archiv für die gesamte Physiologie des Menschen und der Tiere" by *E. F. W. Pflüger*. Edited by *M. Verworn, E. Abderhalden, A. Bethe, R. Höber, A. v. Muralt, H. Rein* et al.

Published: Vol. 1—29 (1876) Bonn, Cohen und Sohn; Vol. 30—92 (1901) Bonn, E. Strauß; Vol. 93—170 (1917) Bonn, M. Hager; since Vol. 171 (1918) Berlin, Springer.

Since 1920 Pflügers Archiv has included: „Archiv für Physiologie" (Archiv für Anatomie und Physiologie, Physiologische Abteilung). Founded and edited by Johannes Müller, E. du Bois-Reymond, W. v. Waldeyer-Hartz et al. 1877—1914. Leipzig, Veit und Co., since 1915, Berlin, Vereinigung Wissenschaftlicher Verleger, afterwards Walter de Gruyter.

New Books in the Neurosciences

Techniques and Basic Experiments for the Study of Brain and Behavior

by **J. BUREŠ, O. BUREŠOVÁ** and **J. P. HUSTON.**

1976 xvi + 272 pages. US $23.25/ Dfl. 60.00. ISBN 0-444-41502-5

This textbook and practical guide to experimentation in physiological psychology provides detailed coverage of many of the major problem areas and experimental techniques used in brain and behavior research. Over 50 carefully chosen reproducible experiments covering the traditional research areas of learning and memory, innate and motivated behavior, ablation and stimulation of the brain, electrophysiological correlates of behavior, and pathological states are presented in detail. This book will be an essential acquisition for all students of physiological psychology.

Membrane Morphology of the Vertebrate Nervous System

A Study with Freeze-etch Technique

by **C. SANDRI, J. M. VAN BUREN** and **K. AKERT.**

PROGRESS IN BRAIN RESEARCH, Vol. 46

1976 xii + 388 pages. US $67.50/ Dfl. 175.00. ISBN 0-444-41479-7

There has been increasing interest in freeze-etch morphology since 1970 but literature has tended to appear in numerous different sources. This is the first comprehensive attempt to present materrial on membrane morphology by freeze-etch study in a single volume. The result is an amply and beautifully illustrated monograph containing nearly 200 photographs of freeze-etch preparations.

Hormones and Brain Differentiation

by **G. DÖRNER.**

1976 viii + 272 pages US $ 36.50 / Dfl. 95.00 ISBN 0-444-41477-0

This monograph deduces a number of 'rules' for differentiation in open-loop and feedback control systems, which in turn control a number of fundamental processes of life such as reproduction, metabolism and information processing.

Opiates and Endogenous Opioid Peptides

Proceedings of the International Narcotics Research Club Meeting, Aberdeen, United Kingdom, 19-22 July, 1976

H. W. KOSTERLITZ.

1976 x + 456 pages US $ 36.50 / Dfl. 95.00 ISBN 0-7204-0599-8

The most up-to-date and comprehensive information concerning opiate narcotics, *available less than 2 months after the meeting took place.* For all those interested in the mode of action of narcotic analgesics and the way in which opiates and endogenous opioid peptides react in the central nervous system.
